EXPERTISE

- Management Skills
- Team Work
- Java
- Python
- GitHub

HOBBIES

- Watching Movies
- Singing

LANGUAGE

- English
- Telugu

PROFILE

Undergraduate Student in Computer Science and Engineering at Karunya University. Learning and improving my theoretical and practical knowledge through course work and projects. Learning to code, create and innovate. Gained basic knowledge in C , Python , Java. Exploring Technology.

WORK EXPERIENCE

Python Programming Intern (Virtual Internship)

CODTECH — 4 Weeks

- Completed a 4-week virtual internship focused on Python programming and application development.
- Designed and developed 5 mini-projects using core Python concepts and problem-solving skills.
- Implemented logic, user input handling, functions, and basic data structures in all tasks.
- ◆ Strengthened understanding of real-world Python applications and clean coding practices.

Projects Developed:

- Parking Management System Application – to handle parking lot operations, including vehicle entry, exit, space management, and payment processing.
- ◆ Smart Soil Analysis and Crop Recommendation System for Optimized Agricultural Productivity – An intelligent IoT based approach that monitors, analyzes, and interprets soil data in real time.
- Embedded Rainwater Harvesting Monitoring and control system for real-time water level monitoring and automated pump control.
